# Hva er Community Zone?

- En felleskatalog for elektroniske ressurser i Alma
- Metadata kommer fra mange ulike kilder og er konvertert til MARC 21
- Kvaliteten på metadata varierer
- Postene oppgraderes ofte over tid
- Fra ultimo 2015 kan poster i CZ kvalitetsforbedres også av bibliotekene

# Alma Community Zone (CZ)

[Policydokumentet](#) *Alma Community Catalog: Cataloging Standards, Policies, Rights, and Responsibilities (2014)* :

- The Alma Community Catalog is guided by the principles of openness and reliability. Our goal is to make the Catalog a reliable source of content and to maximize the contributions of Alma institutions

# Felleseie!

- Ex Libris intends that all records contributed to the Community Catalog be open for use by all members of the Alma community. Ex Libris does not want to manage or enforce restrictions [...]
- This agreement states that users have the ability to use, share, edit, copy, and redistribute records in the Community Catalog that are linked to a library's inventory, including the right to contribute to external pools of reusable bibliographic data

# Eller?

- When contributing records to the Community Catalog, certify that the records (including any content, review, or abstract information derived from third parties) are available for contribution, are free and unencumbered by any other license, claim, or usage policy, and do not violate any third party's rights

## E-bøker i CZ

- Stor variasjon i kvalitet
- Hvordan redusere antall dubletter?
- Hvordan berike poster av mindre god kvalitet?
- Hva gjør vi som konsortium med de konverterte postene?
- Hva gjør vi som konsortium med nye poster i pakker?
- Aktivering i CZ eller NZ?

# Hva med e-tidsskrift?

## E-tidsskrift

- Her er det ikke samme grad av kvalitetsproblematikk
- Grunn: CONSER-poster (Cooperative Online Serials Program) i CZ
- Men: trykte poster brukes i noen grad for å representere e-tidsskrift
